

**Tannin Spotter**

## “ChemTan”

A wet-side tannin spotter for the safe removal of tannin stains such as coffee, tea, beer, soft drinks, liquor, fruit juices, grass stains, mustard, and wine.

- *For safe removal of tannin stains*
- *Removes many of those difficult yellow and brown stains*
- *Penetrant added to aid in loosening those tough stains*
- *Effective on mustard, inks, grass stains and more*
- *Contact us for pricing and available sizes*

### DIRECTIONS

Use ChemTan<sup>®</sup> to remove fruit, grass, juice, mustard, and other tannin stains. Wet out stain with ChemBrite Neutral Lubricant<sup>®</sup>, and then apply ChemTan<sup>®</sup>. Gently work into stain with spatula, or tamp with spotting brush. Flush with water or steam gun, then dry and continue the dry-cleaning process. If necessary, repeat the procedure to remove last traces of the stain.
